NOTICE ABOUT YOUR DRINKING WATER
Disinfection Byproducts Maximum Contaminant Level (MCL) Exceedance

Public Water System Name: ____Andover Village Disrict____ PWS ID: __0081010____

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not your drinking water meets health standards. The locational running annual average (LRAA) calculation represents the average of all sample results collected at a particular monitoring location during the previous four calendar quarters. The drinking water LRAA calculation is above the enforceable MCL at one or more sites for the following:

Contaminant and MCL	Detected Level	Date Sampled	Highest LRAA	Compliance Period
Total Trihalomethanes (TTHM) 0.080 mg/L	71	11/28/23	90	4th Qtr
Haloacetic Acids (HAA5) 0.060 mg/L	30	11/28/23	24	4th Qtr

This is not an emergency. If it had been, you would have been notified immediately.

For TTHM violations: *Some people who drink water containing trihalomethanes in excess of the MCL over many years may experience problems with their liver, kidney or central nervous system and may have an increased risk of getting cancer.*

For HAA5 violations: *Some people who drink water containing haloacetic acids in excess of the MCL over many years may have an increased risk of getting cancer.*

It is not necessary to use alternate water; however, if you have specific health concerns, please contact your health care professional. General health related questions may be directed to the EPA Safe Drinking Water Hotline at 1-800-426-4791.

Steps being taken to correct the situation: __Cycling of water in the system to control detention time____

____ Expected Resolution Date: __3/1/24____

Contact Name: ____John Coffey____ Company: ____Andover Village District____

Address: __P.O. Box 185 Canaan N.H.____ Telephone Number: __603-304-9380____

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example; people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.
